Receive prescriptions instantly from Doctors and connect with new and existing patients

**Secure portal
Free for pharmacies**

New secure online Portal. Patients pay a small fee for their doctor to review their profile and renew routine medication. Why take the medical risk of renewing medication. Better to receive prescriptions instantly after being approved online by Doctors. Secure website application. Prescription is an Adobe document with digital encryption and an electronic signature which can only be printed by the pharmacist.

- + Free for all pharmacies
